

Catholic Charities

Installation
2006

Location
Park Ave.
Flemington, NJ

Materials

SW-81
Repair Mortar

Strongcote SC-111
Pedestrian Grade Coating

Contractor

Lime Contracting
Jersey City, NJ

Restoration of the steps and entrance landing for an historic building required the use of SWI, to match the color of the coating to the original sidewalk. After SW-81 mortar was used to repair the spalls, two coats of SC-111 pedestrian grade coating with a custom color match, was applied.
