Turner Construction Company  
800 North Magnolia Avenue  
Orlando, FL 32803

#### Contractor

Alpha Insulation & Waterproofing  
955 Charles Street, Unit # 101  
Longwood, FL 32750

The City of Orlando and Orange County officials approved a multimillion dollar renovation of the Florida Citrus Bowl, originally built in 1936, to attract high-impact events. Both the Strongcote Pedestrian and Vehicular traffic deck coatings, manufactured by Strongwall Industries, were specified to coat the entire upper bowl, sections of the lower bowl, and various concourses during this ten month project. The stadium aesthetics speaks "Central Florida" with the natural color selection of both deck systems. The first phase was completed to host the Florida Classic, and the project was finalized in the Spring of 2015.
