

## IS-27

**Installation**  
2005-2006

**Location**  
11 Clove Lake Place  
Staten Island, NY

**Materials**  
Strongcrete SW-88  
Repair Mortar

**Contractor**  
Ianelli Contracting

This New York City school has a structural slab roof and ceiling that was badly spalled due to numerous roof leaks. During the course of the one and a half year school rehabilitation the contractor used SW-88 overhead and deep vertical repair mortar to repair the 6,000+ sq. ft. of 2" to 3" spalls.
